**October is Domestic Violence Awareness Month**

Each year, more than 2 million women and men are victims of violence by an immediate family member. Often, victims of domestic abuse feel trapped. They feel like they don’t have access to resources or support that would enable them to either leave or get the help they need to turn their relationship into a safe and respectful one. This epidemic impacts all of us. We may have friends, colleagues or family members who are victims. We may notice changes in their attitudes, work performance, self-esteem or hygiene. We may worry about approaching them with our concerns, but may not know what to say or how to help. In other cases, we may be completely blindsided by the realization that a friend lives in an abusive relationship.

Throughout October, our goal is to raise awareness about the dynamics of domestic abuse. We hope to empower everyone with information and tools for victims of domestic abuse. We will also take this opportunity to celebrate and recognize the characteristics of healthy relationships. To that end, several family-fun events are planned throughout the month. Look for our purple fliers with information about DVAM events. You can also call FFSC for additional information at 775-426-3333.
